

Adrian Sistem SRL

Company Profile

1. Introduction

Company History and activity

Adrian Sistem was founded in 1992 in Bucharest, out of the passion for technical glassblowing belonging to Petru and Gabriela Stefanescu. Master glassblower Petru Stefanescu teamed up with experienced glassblowers from the old, state-owned company in which they had previously been colleagues. In this new venture there were only 4 people at the beginning. In the years to come the company expanded to 20 employees. In this time the company has worked tirelessly with businesses from many countries. *Adrian Sistem* has provided high quality glass blown products and has produced from the simplest pieces to components of very high complexity.

Laboratory Glassware

Adrian Sistem produces laboratory glassware of high quality for clients from Germany, Austria, Sweden, France, Italy, Saudi Arabia, Romania etc. The raw material is borosilicate glass imported from Germany and the Czech Republic. Also we produce laboratory glassware with great success under our own brand “Adrian Sistem” for the Romanian market.

Products

The range of products we currently manufacture are from the following categories:

1. Standard laboratory glassware according to the DIN standard
2. High complexity glassware (1-4 coil condensers, Kjeldahl flasks, different purpose columns, RODAVISS products, Rotavapor condensers, reactors etc).
3. Custom glassware according to the client’s necessities and designs.

We process any type of laboratory glassware to a maximum of 260mm diameter, at the moment.

Services

We offer know-how services, maintenance and service if the necessity arises. Our solution oriented design department helps all clients reach their goals regarding their products. In producing the glassware we use the most modern tools, however, for special needs we create our own tools as well.

Adrian Sistem is a ISO 9001:2008 certified company and all products are in conformity with this quality standard.

Other activities

The company has also developed its creative part through the design of *Gabriela Seres* in the art of decorative glassware and unique lighting pieces. The designs and also the brand are present in luxury stores globally in countries like: USA, Germany, Austria, Sweden, Switzerland, France, Italy, Romania, The Netherlands, Australia, Japan, Saudi Arabia, Qatar, Mexico etc.

2. Strategy
